

WANTED: DEDICATED TEACHERS • DEDICATED PARENTS • DEDICATED COMMUNITIES

ABOUT THE CANADIAN POLICE ASSOCIATION WWW.CPA-ACPCA

By raising awareness on law enforcement and justice issues, the CPA promotes community safety. The CPA has contributed to the deliberations on such issues as youth criminal justice; child pornography; impaired driving; sentencing, corrections and parole reform; national sex offender registry; criminal pursuits; organized crime; and technological innovation in policing, such as DNA testing and the Canadian Police Information Centre renewal project. The CPA has designed the *Cops for Kids Safety* program (copsforkidssafety.com) to help our teachers and parents give our children the tools to *Be Smart and Be Safe* in our world today.

SAFETY IN THE HOME

The number of children seeking medical attention each year because of home injuries is alarming. There are steps that can be taken to ensure the safety of your home and to reduce the risk of injury. It is important that children are educated to recognize potential safety hazards and what to do if they see them. The *Cops for Kids Safety* program is educating students and their families about how to spot home safety hazards, and what to do to avoid and prevent them.

ONLINE SAFETY

In today's digital world, it is important that you as a parent become just as cyber savvy as your kids. With all the stories of cyber abuse and internet predators out there, it is easy to get spooked. But hold on, before you decide to disconnect your internet, take the time to learn how to spot these potential threats and what you can do to prevent them. Make sure your children understand which web sites are acceptable and which are off limits. Place the computer in the family room or kitchen so you can see what your children are viewing. Set a time limit for how long they can spend on the computer. The *Cops for Kids Safety* program will educate your children to help keep them cyber safe.

INTERACTIVE IN SCHOOL OR AT HOME

Teachers and parents play an important role in guiding children of all ages in different steps to personal development. The *Cops for Kids Safety* program has been designed as an interactive learning tool that will guide them through a series of real life skill tests to educate them on how to spot dangers before an injury occurs.

BE SMART, BE SAFE

INTERACTIVE SKILL TESTING MODULES

WWW.COPSFORKIDSSAFETY.COM

1 AT SCHOOL

- dealing with bullies
- reporting bullying or harassment

8 THIEVES

- lock it up
- don't flash it around

WHAT THE SCHOOL TEACHER AND PARENT CAN DO

The role that teachers and parents play is key to the development of their students/children. Children look to them, as role models, for support and guidance.

THE COPS FOR KIDS SAFETY PROGRAM

The program stresses the importance of teachers and parents properly educating the children in these valuable and critical life skills. The modules are designed for appropriate grade levels and will cover the pertinent categories on safety in a fun, interactive program learned at school and at home.

WHAT THE PROGRAM CAN DO

Together with the teacher and the parent, the *Cops for Kids Safety* program takes the children through real life skill situations. It is not only an interactive program accessible through the internet, it also provides a resource for teachers and police officers to use in schools. The program is a valuable tool used to educate children.

WHAT THE COMMUNITY CAN DO

The community plays an important role in the development of children. Living in a safe community helps our children to grow up without stress and to play safely. Why not support a good cause like the *Cops for Kids Safety* program developed to teach children life skills in the community, a safe haven for the future.

BE SMART, BE SAFE

1-800-378-0929

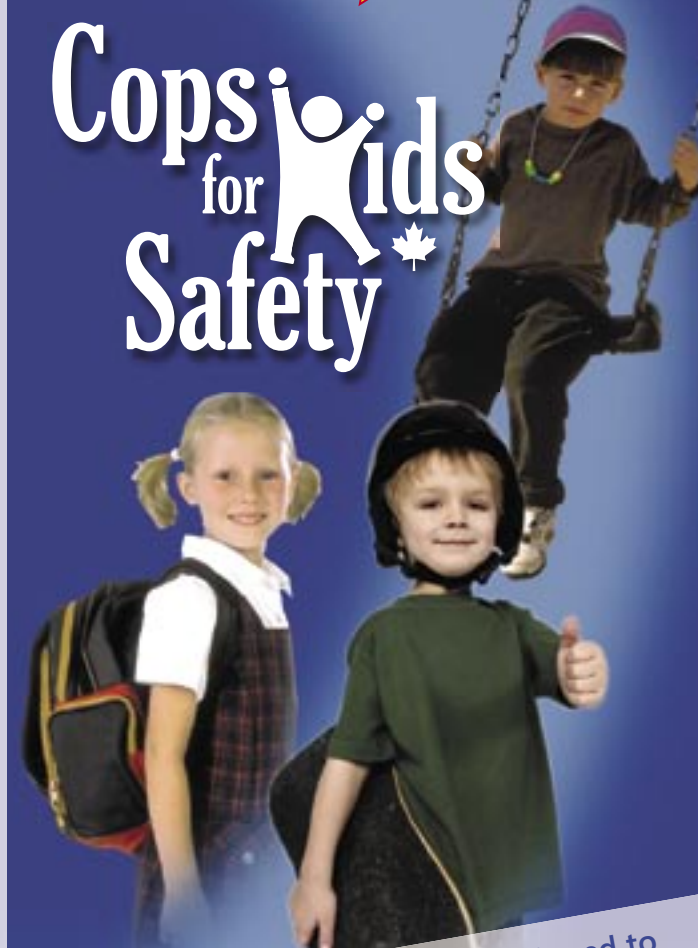

Make your community a safer place to live for your children, For now and For the Future.

Thank you for your support

BE SMART, BE SAFE

Cops for Kids Safety

An interactive school program designed to teach kids about safety at school, at home, at play, on the street, on the internet
